Quickprops™

■ STOCK SIZES

- 3M - closes down to 1.7M
- 4M - closes down to 1.7M
- 5M - closes down to 1.7M
- 6M - closes down to 1.7M

■ VARIOUS HEIGHTS

All Quickprops™ close down to 1.7 metres and we have versions that extend to 3, 4, 5 and 6 metres high.

■ ANY LENGTH

Used with our suggested screening materials any length Protecta Screen™ can be created.

■ NO DAMAGE

The non marking pads secure the Quickprops™ between the floor and ceiling and require no additional fixings.

■ NO WASTE

Quickprops™ are supplied in a reusable carrier and create no waste.

■ NO TOOLS

No tools are required for the installation of Quickprops™.

■ SAVE TIME

It takes minutes to install and dismantle a Protecta Screen™ using Quickprops™.

■ CUSTOMER CARE

Given it takes only a few minutes to erect a screen you can now afford to install a Protecta Screen™ where previously you wouldn't have time, thus creating an excellent impression on your client.

Designed specifically for use in sensitive occupied areas, Quickprops™ are lightweight, strong, telescopic aluminium props for supporting our full range of temporary screening materials.

With versions extending from 1.7 metres to 6 metres any length temporary screen can be delivered, installed, dismantled and removed quickly without the need for tools or fixings. No disruption or waste is created, **Quickprops™** are completely reusable and all components are available, individually, from stock. **Quickprops™** directly replace the need for the construction of timber frames to create a temporary screen and will effectively shield sensitive areas from disruption, dust, dirt, paint and mortar splashes, alongside creating an effective barrier between the occupied / sensitive area and your project.

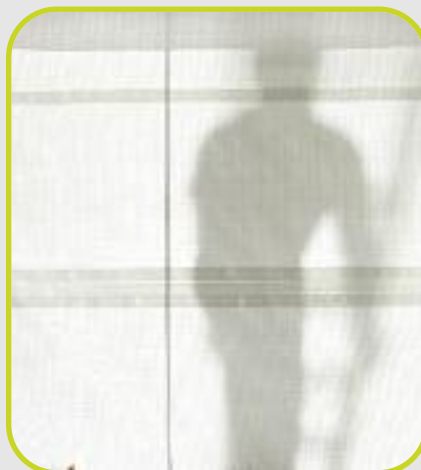

DEMONSTRATION

We would be pleased to demonstrate the system to you at your offices or project. Alternatively we can send you a demo on CD or it is available to view on our website at www.protectascreen.com

Screening Material

Various types of screening material for use with Quickprops™ to create a temporary screen.

- **STOCK SIZES**
 - Light Duty Translucent Screening Material 4M Wide - 25M Roll
 - Heavy Duty Translucent Screening Material 4M Wide - 25M Roll
 - Reinforced Screening Material 4M Wide - sold per linear metre
 - Flame Retardant Screening Material 4M Wide - 25M Roll (Certified to LPS 1207)
 - Flame Retardant Reinforced Screening Material 4M Wide - sold per linear metre

- **STANDARD TRANSLUCENT**

Translucent economical temporary screening creates an effective barrier whilst allowing light through.
- **STANDARD REINFORCED**

Translucent, heavy duty reinforced, providing increased strength and reusability.
- **FLAME RETARDANT**

White, Flame Retardant Certified to LPS1207, creates an effective barrier.
- **FLAME RETARDANT REINFORCED**

White, heavy duty flame retardant reinforced providing increased strength and reusability.

Zip Door

- Self adhesive stick on zip doors that create a sealable doorway on your Protecta Screen™.
- SIMPLY INSTALLED IN MINUTES.
- ALLOWS ACCESS TO THE WORKING ENVIRONMENT.
- AVAILABLE IN TWO GRADES.

Tape Free Dust Seal and Foam Wall

- Simply attaches to any size Quickprop™ and creates an extremely tight seal between the screening material, wall and the ceiling.
- CREATES AN EXCELLENT DUST SEAL.
- FITS SIMPLY TO ALL SIZES OF QUICKPROP.

Reuse-A-Wall™

New Innovative PVC Modular Hoarding System
bespoke manufactured to your exact height, length
and design requirements.

Please contact us for a demonstration or quotation.

BEFORE

AFTER

- RAPID 3 STEP INSTALLATION**
Using our simple, innovative **Place 'n' Brace™** system.

Protecta Board™

Fluted polypropylene supplied in sheets or rolls for multi surface impact protection.

Protecta Board™ is extremely versatile, it can be cut, formed and shaped to protect even the most unusual of surfaces / items and provides excellent impact protection whilst also being completely water resistant.

Available in various thicknesses and types **Protecta Board™** is a well established product used in many protection applications across the construction process.

- STOCK SIZES**
2.4M x 1.2M - Sheets
1M x 50M - Rolls
In various thicknesses and grades

- IMPACT RESISTANT**
Constructed to provide excellent impact protection.
- VARIOUS THICKNESSES**
Available from stock.
- SHEETS & ROLLS**
Choose the right product to suit your application, supplied in sheets or space saving rolls.
- COLOURS**
Protecta Board™ is supplied in white, black and translucent from stock, other colours available upon request.
- WATERPROOF**
100% waterproof, holds spills and protects against wet foot traffic.
- CUSTOMISATION**
We can fully customise Protecta Board™ offering various material colours, company logos & graphics.
- FLAME RETARDANT**
Protecta Board™ is available in Standard Non Flame Retardant, Flame Retardant and Certified to LPS 1207 Flame Retardant.
- WE CAN ALSO CREATE BESPOKE PRE-CUT SHEETS WITH NO MINIMUM ORDER QUANTITY.**

Protecta Carpet™

STOCK SIZES

600mm x 25M Standard
600mm x 100M Standard
800mm x 100M Standard
1200mm x 100M Standard
600mm x 25M Heavy Duty
600mm x 50M Heavy Duty
1200mm x 50M Heavy Duty

QUICKLY APPLIED

Either use our specially designed applicators or roll out and smooth into place by hand.

FIXING

Self adhesive, does not require tape or additional fixing.

STAYS IN PLACE

Being self adhesive, once applied Protecta Carpet™ doesn't ruck or travel avoiding trip hazards.

LEAVES NO RESIDUE

Special technology ensures that the adhesive remains on the product and doesn't transfer to the carpet upon removal.

INDUSTRIAL STRENGTH

Puncture and tear resistant.

WATERPROOF

Stops contamination from spills and wet foot traffic.

HYGIENIC

Can be swept or hoovered prior to removal, avoids the spread of contamination.

AVAILABLE IN TWO GRADES & SEVEN DIFFERENT ROLL SIZES

Enabling you to cover the right area with the correct degree of protection.

FLAME RETARDANT

Tested to BS 4790 (carpet flammability).

With over 1 million square metres sold every year **Protecta Carpet™** is a tried, tested and proven, effective self adhesive carpet protection film.

Applied freehand or with specially made applicators it can be laid in single strips as a 'runner' or installed across a whole carpeted surface to provide a waterproof barrier which protects from spills, dirt and contamination from foot traffic.

With health and safety in mind **Protecta Carpet™** stays securely in place and doesn't travel like dust sheets or loose protection methods making it ideal for use in public areas.

Protecta Carpet™ is only suitable for use on carpet.

THE CONSTRUCTION INDUSTRY'S MAIN SUPPLIER

Carpet Safe™

- **STOCK SIZE**
600mm x 100M

**SPECIAL SIZES
AVAILABLE TO ORDER**

- **INCREASED SLIP RESISTANCE**

Puncture and tear resistant.
- **WATERPROOF**
Stops contamination from spills and wet foot traffic.
- **HYGIENIC**
Can be swept or hoovered prior to removal, avoids the spread of contamination.

Introducing our economically friendly carpet protection, Carpet Safe™.

Using the same adhesive technology as Protecta Carpet™ it will not ruck or travel when applied but also removes clean, leaving no residue. Being embossed it creates an anti-slip surface and provides increased protection from foot traffic, spills, etc.

Carpet Safe™ is only suitable for use on carpet.

Carpet Safe FR™

Protecta Screen brings to the market the competitively priced LPS 1207 carpet protection, Carpet Safe FR™ tested in Watford by the BRE this British product will give you peace of mind while carrying out refurbishments and covers all your insurance needs.

Carpet Safe FR™ has been specifically created for use in sensitive areas where potential slip and fire hazards are increased.

STOCK SIZES

600mm x 100M

SPECIAL SIZES

AVAILABLE TO ORDER

INCREASED SLIP RESISTANCE

Embossed surface provides excellent slip resistance.

QUICKLY APPLIED

Either use our specially designed applicators or roll out and smooth into place by hand.

FIXING

Self-adhesive, does not require tape or additional fixing.

STAYS IN PLACE

Being self-adhesive, once applied Carpet Safe FR™ doesn't ruck or travel.

LEAVES NO RESIDUE

Special technology ensures that the adhesive remains on the product and doesn't transfer to the carpet upon removal.

INDUSTRIAL STRENGTH

Puncture and tear resistant.

WATERPROOF

Stops contamination from spills and wet foot traffic.

- **FLAME RETARDANT**
Flame Retardant Certified to LPS 1207

Protecta Shield™ is a flame retardant embossed anti slip roll out protection polythene.

Suitable for use as a large area floor protector or 'runner', it can also be used as an extra heavy duty screening material with Quickprops™ (see pages 4 and 5).

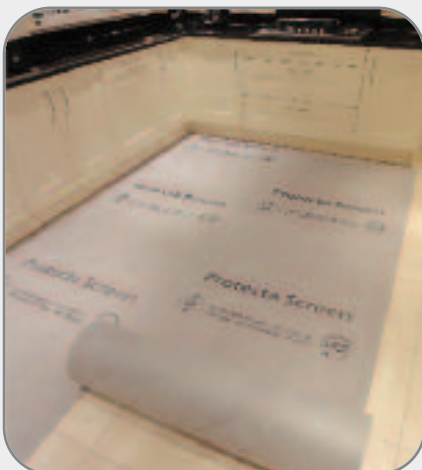

Protecta Shield™ provides protection against dust, dirt, light debris, foot traffic and given that it is waterproof will retain spills & splashes.

Breather-Poly FR™

Breather-Poly FR™ is a Breathable Flame Retardant to LPS 1207 floor protection.

It is a non woven material which will offer protection to your floors from dirt, dust and spillages whilst allowing your floor to still be able to breathe. **Breather-Poly FR™** can be used to protect your vinyl's, screed flooring, newly finished wood, stone, terrazzo and tiled flooring.

- **STOCK SIZES**
1M x 100M
Certified to LPS 1207

SPECIAL SIZES AVAILABLE TO ORDER

- **QUICKLY APPLIED**
Simply roll out and join together using our range of Self Adhesive Tapes.
- **BREATHABLE**
Specially designed for use on newly laid floors allowing the floor to breathe.
- **CUSTOMISATION**
We can add your company logo and contact details.
- **FLAME RETARDANT**
Breather-Poly FR™ is Certified to LPS 1207.

QUALITY PRODUCTS FROM THE MARKET LEADER

Protecta Grip™

STOCK SIZES

Standard
1.5M x 150M x 125 Micron

QUICKLY APPLIED

Simply roll out, cut to length and join with tape where required.

FIXING

Secured using the appropriate adhesive tape, increased grip to carpets can be achieved by adding our Self Adhesive Velcro.

INCREASED SLIP RESISTANCE

Granulated material creates an excellent anti slip surface.

INDUSTRIAL STRENGTH

Puncture and tear resistant.

WATERPROOF

Provides a complete barrier against spills and wet foot traffic.

Protecta Grip™ is a large area floor protection film specially granulated to give a non abrasive, anti slip surface.

The granulation is encased in the core material so is safe to use on finished surfaces without fear of abrasion or scratching.

It also provides added grip and anti-slip properties to this economical floor protector which is waterproof.

Protecta Floor™

Protecta Floor™ is a roll out floor protection offering excellent impact resistance, manufactured from 100% recycled materials.

Its slip resistant 'floor hugging' backing ensures it stays in place providing you with an unequalled level of protection in a 'roll out' product.

STOCK SIZES

- 1M x 25M Protecta Floor 150
- 1M x 50M Protecta Floor 150
- 1M x 25M Protecta Floor 300
- 1M x 25M Protecta Floor 500

SPECIAL SIZES AVAILABLE TO ORDER

- QUICKLY APPLIED**
Simply roll out, smooth into place and trim.
- PRESSURE SENSITIVE**
Requires no additional taping or fixing.
- IMPACT RESISTANT**
Thick fibre layer creates excellent impact protection.
- WATER RESISTANT**
100% water resistant, holds spills and protects against wet foot traffic.
- REUSABLE**
When cleaned can be rolled up and re-used time & time again.
- VARIOUS GRADES**
Supplied in medium, heavy and extra heavy duty.

QUALITY PRODUCTS FROM THE MARKET LEADER

Recyclo Card™

STOCK SIZES

1.25M x 40M
660mm x 40M

SPECIAL SIZES AVAILABLE TO ORDER

QUICKLY APPLIED

Simply roll out, smooth into place and trim. Can be used as a runner.

WATER RESISTANT

Waterproof PE coating making it 100% water resistant, holds spills and protects against wet foot traffic.

REUSABLE

When cleaned can be rolled up and re-used time and time again.

STRONG AND DURABLE

Once in place will provide excellent protection.

MADE FROM 100% RECYCLED MATERIAL

Made from 100% recycled packaging and can be completely recycled after use.

EASY TO CUT TO SHAPE

Recyclo-Card™ is suitable for both internal and external use, providing large area coverage that is quick to cut to shape.

PRODUCT USES:

General Floor protection
Can be used as a runner
Used for DIY / Hobbies
Used under Scaffolding
Outdoor use
Decorating & Plastering

A brand new innovation exclusive to Protecta Screen, Recyclo-Card™ is a roll out floor protection made from 100% recycled packaging.

Available in 1.25m x 40m rolls, it has a waterproof PE coating meaning that it is suitable for a wide range of applications. It can be fully recycled after use meaning minimal impact on the environment. Simply tape down using our Joining Tape, which can be custom printed with your company details.

Floor Card

Floor Card is a traditional protection product used widely throughout the House Building industry to protect most surfaces.

It is water resistant, durable and provides outstanding impact protection.

Floor Card is ideal for protecting newly laid screed floors as it will allow the floor to breathe during the curing process.

With all joints taped it provides an excellent anti slip surface.

- **STOCK SIZES**
1M x 100M - Standard
1M x 50M - Heavy Duty

**SPECIAL SIZES
AVAILABLE TO ORDER**

- **QUICKLY APPLIED**
Simply roll out, trim where necessary and tape all joints.
- **FIXING**
Secured using the appropriate adhesive tape.
- **IMPACT RESISTANT**
Will protect against scrapes, scratches and impact damage.
- **BREATHABLE**
Allows newly laid floors to breath, especially assists the curing process on screed floors.
- **STRONG AND DURABLE**
Once in place will provide excellent protection.
- **SLIP RESISTANT**
Provides a safe walking surface.
- **NON ABRASIVE FINISH**
Safe to use on finished surfaces.

QUALITY PRODUCTS FROM THE MARKET LEADER

Multi Use Red™

STOCK SIZES

600mm x 50M
600mm x 100M

**SPECIAL SIZES
AVAILABLE TO ORDER**

QUICKLY APPLIED

Simply roll out and smooth into place.

FIXING

Self adhesive, does not require tape or additional fixing.

STAYS IN PLACE

Being self adhesive, once applied Multi Use Red™ will stay in place ensuring your surface is constantly protected.

LEAVES NO RESIDUE

Special technology ensures that the adhesive remains on the product and doesn't transfer to the protected surface upon removal.

INDUSTRIAL STRENGTH

Puncture and tear resistant.

WATERPROOF

Stops contamination from spills.

HYGIENIC

Can be swept or hoovered prior to removal, avoids the spread of contamination.

Multi Use Red™ works on the principal that the best type of protection is one which stays in place.

Being self adhesive it is quickly and simply applied to most hard surfaces such as worktops and kitchen units and will protect against scratches, dirt, dust, spills and splashes.

Specially formulated, **Multi Use Red™** will remove clean and it's obvious colour sends a clear signal that it is protecting a finished sensitive surface.

Kitchen Protection

WORKTOP PROTECTOR

Fluted polypropylene impact protection supplied cut to the exact size required or easily trimmed on site.

OVEN AND HOB PROTECTOR

Specially formed fluted polypropylene impact protection prevents damage to the face of the oven and hob.

STOCK SIZES

Cut to size

QUICKLY APPLIED

Supplied pre-cut & creased for quick site assembly.

EXCELLENT IMPACT PROTECTION

Constructed from impact resistant fluted polypropylene.

WATERPROOF

Protects from liquid / mortar splashes.

VARIOUS COLOURS

Black, White & Translucent from stock, other colours available to order.

FULL CUSTOMISATION SERVICE

Add your company details, logos or message.

FLAME RETARDANT

Can be manufactured in Standard Non Flame Retardant or Flame Retardant Certified to LPS 1207 in a number of colours.

Protecta Fleece™

- 1M x 50M - Standard
- 2M x 50M - Standard
- 1M x 50M - Flame Retardant

SPECIAL SIZES AVAILABLE TO ORDER

QUICKLY APPLIED

Simply roll out, smooth into place and trim.

FIXING

Stays securely in place, does not require tape or additional fixing.

STAYS IN PLACE

Being self adhesive, once applied Protecta Fleece™ doesn't ruck or travel.

LEAVES NO RESIDUE

Special technology ensures that the adhesive remains on the product and doesn't transfer to the protected surface upon removal.

IMPACT RESISTANT

Thick fibre layer creates excellent impact protection.

WATERPROOF

100% waterproof, holds spills and protects against wet foot traffic.

FLAME RETARDANT

Protecta Fleece is available in Standard Non Flame Retardant and Flame Retardant tested to:
ISO4589-2: 1996 Oxygen Index prEN2825 & prEN2826
BS476: Part 12: 1991 Ignition Source C
Large Flame Test to LPS 1207: 1994 Section 3.1.3

Protecta Fleece™ is a waterproof, impact resistant 'roll out' protection and being self adhesive requires no additional taping or fixing to stay in place.

It is supplied in rolls and therefore unlike other impact protection products is easily transported and manoeuvred on site.

THE CONSTRUCTION INDUSTRY'S MAIN SUPPLIER

Breathable Fleece™

Breathable Fleece™ is a breathable, water and impact resistant “roll out” protection. Specially designed for use on newly laid floors allowing the floor to breathe and being self adhesive requires no additional taping or fixing to stay in place.

It is supplied in rolls and therefore unlike other impact protection products is easily transported and manoeuvred on site.

STOCK SIZES

1M x 50M

**SPECIAL SIZES
AVAILABLE TO ORDER**

QUICKLY APPLIED

Simply roll out, smooth into place and trim.

FIXING

Stays securely in place, does not require tape or additional fixing.

STAYS IN PLACE

Being self adhesive, once applied Breathable Fleece™ doesn't ruck or travel.

LEAVES NO RESIDUE

Special technology ensures that the adhesive remains on the product and doesn't transfer to the protected surface upon removal.

IMPACT RESISTANT

Thick fibre layer creates excellent impact protection.

BREATHABLE

Specially designed for use on newly laid floors allowing the floor to breathe.

Protecta Mat™

STOCK SIZES

1150mm x 450mm
30 Poly sheets per mat

SPECIAL SIZES

AVAILABLE TO ORDER

QUICKLY APPLIED

Simply remove the protective layer and press into place.

EFFECTIVE DUST REMOVAL

Not only removes 'contamination' but also holds it unlike traditional door mats.

ANTI TRIP

Low profile mat.

SUITABLE FOR USE WHEN THE DOOR IS HUNG

Low profile mat enables door when opened to pass over it without hindrance.

SAVES TIME

Significantly reduces 'clean up' time.

CUSTOMER CARE IMAGE

Creates an excellent image and obvious duty of care to your client.

STANDARD

Protecta Mat™ Standard is a low profile, tacky, dust removing mat which prevents dry debris from being walked / wheeled into a sensitive area.

Each mat has 30 pressure sensitive tacky sheets which are easily replaced by peeling away when each one becomes 'full'.

Protecta Mat™ Standard is low profile enabling it to be safely fitted in doorways.

THE CONSTRUCTION INDUSTRY'S MAIN SUPPLIER

Protecta Mat™

HEAVY DUTY

Protecta Mat™ Heavy Duty works on the same principal as the Standard 'Mat but it's tacky sheets are cotton enabling it to remove heavier dirt and debris.

It is also able to remove dirt from foot traffic that may be slightly damp and works in a way closer to a traditional door mat. Each mat has 36 sheets which are simply peeled away when 'full' to reveal a new sheet. Supplied in a heavy duty rubber frame **Protecta Mat™ Heavy Duty** can be relocated easily around your project.

- **STOCK SIZES**
900mm x 600mm
36 Cotton sheets per mat

**SPECIAL SIZES
AVAILABLE TO ORDER**

- **QUICKLY APPLIED**
Simply remove the protective layer and press into place.
- **EFFECTIVE DUST REMOVAL**
Not only removes 'contamination' but also holds it unlike traditional door mats.
- **HEAVY TRAFFIC**
Will remove heavier 'contamination' even if damp.
- **HEAVY DUTY RUBBER FRAMED**
Can be moved around the site where needed or from project to project.
- **SAVES TIME**
Significantly reduces 'clean up' time.
- **CUSTOMER CARE IMAGE**
Creates an excellent image and obvious duty of care to your client.

Foam Jamb Guard™

■ STOCK SIZES

Fits up to 200mm wide
2000mm Long

■ QUICKLY APPLIED

Applied in seconds, simply push into place.

■ DAMAGE FREE FIXING

Naturally grabs the jamb / frame without causing damage.

■ STAYS IN PLACE

Even under impact
Foam Jamb Guard™
will not dislodge.

■ EXCELLENT IMPACT PROTECTION

Will protect against all types of site impact.

■ EASILY CUT TO LENGTH

■ COMPLETELY REUSABLE

Move from site to site, slots into itself so easily stored between projects.

Protecta Screen Foam Jamb Guard™ is a high impact foam profile that provides exceptional protection from accidental collisions.

Designed to fit most jamb widths and heights it is very quickly applied by simply pushing into place, can be cut to length and is also completely reusable.

Protecta Screen **Foam Jamb Guard™** is completely non marking and in most cases requires no additional taping or fixing.

Door Sleeves

Protecta Screen Flame Retardant Door Sleeves provide instant protection against scratches, dust, dirt, paint and mortar splashes.

Simply and quickly fitted to 'hung' doors they enable the door to remain in full operation whilst in place. Protecta Board™ Door Sheets, Corner Protectors and other materials can be taped directly to the 'Sleeve' creating greater impact protection without the need for taping or fixing directly to the finished door surface.

STOCK SIZES

22200mm x 915mm
Certified to LPS 1207
20 per Roll

SPECIAL SIZES AVAILABLE TO ORDER

- QUICKLY APPLIED**

QUALITY PRODUCTS FROM THE MARKET LEADER

- **STOCK SIZES**
600mm x 100M
Clear or Blue Tint

**SPECIAL SIZES
AVAILABLE TO ORDER**

- **QUICKLY APPLIED**
Either by hand or with our specially designed applicator.
- **FIXING**
Self adhesive, does not require tape or additional fixing.
- **STAYS IN PLACE**
Once smoothed into position Protecta Window™ will not 'fall away'.
- **REMOVES CLEAN**
Specially formulated adhesive will not leave residue.
- **EXCELLENT PROTECTION**
Forms an excellent barrier against liquid splashes and prevents scratching.
- **UV PROTECTED**
Safe to use both internally and externally.
- **VERSATILE**
Can also be used on various non-porous surfaces.

Protecta Window™

Protecta Window™ is a self adhesive temporary glass protection film. Suitable both for internal and external use it stops paint and mortar splashes landing directly on the glass removing the need for scraping and cleaning, which invariably leads to scratching and expensive replacement costs.

Simply and quickly applied, either by hand or with our specially designed applicator, **Protecta Window™** will save not only on replacement glass costs but will also significantly reduce your clean up time prior to hand over. This product is not suitable for self cleaning glass.

Man Hole Cover

The Man Hole Cover is coloured in bright yellow to ensure high levels of visibility for personnel on site to maximise safety.

Additional weight can be added by placing rubble or rocks within the cover to provide a secure hold.

The cover is extremely lightweight, can be flat-packed and is very easy to install.

STOCK SIZES

350mm x 350mm x 50mm
680mm x 680mm x 75mm

**SPECIAL SIZES
AVAILABLE TO ORDER**

QUICKLY APPLIED

Simply place over man hole.

UNIVERSAL FITTING

Fits all standard man holes.

EXCELLENT PROTECTION

Visual deterrent for workers on site.

LIGHTWEIGHT

Can be easily transported from site-to-site.

VERSATILE

Can also be used on various surfaces and can be flat-packed.

COMPLETELY REUSABLE

Easily removed, packed flat and taken to different site.

CUSTOM PRINTING

Full customisation service.

Sill Protection

32

STONE SILL PROTECTOR

Stone Sill Protector is a high impact thick foam protection profile that can be shaped and formed to provide protection against all types of site damage.

It requires no additional taping or fixing and is reusable enabling it to be moved from location to location as the project progresses.

UPVC SILL PROTECTOR

UPVC Sill Protector works in the same way as the Stone Sill Protector and is designed specifically to protect UPVC sills from damage.

It requires no additional taping or fixing and is reusable enabling it to be moved from location to location as the project progresses.

- **STOCK SIZES**
2000mm Long
Grips various widths
- **QUICKLY APPLIED**
Simply clip into place.
- **EXCELLENT IMPACT PROTECTION**
Thick foam protects against all types of site damage.
- **NO ADDITIONAL FIXING OR SECURING REQUIRED**
Naturally grabs the profile it is protecting.
- **COMPLETELY REUSABLE**
100% reusable, move from plot to plot, site to site.

Sill Protection

PB SILL PROTECTOR

Our PB Sill Protectors™ provide quick and effective protection against falling debris, mortar, etc.

Window sills are always installed early on in the project and are susceptible to damage, using these cost effective profiles will avoid costly replacement.

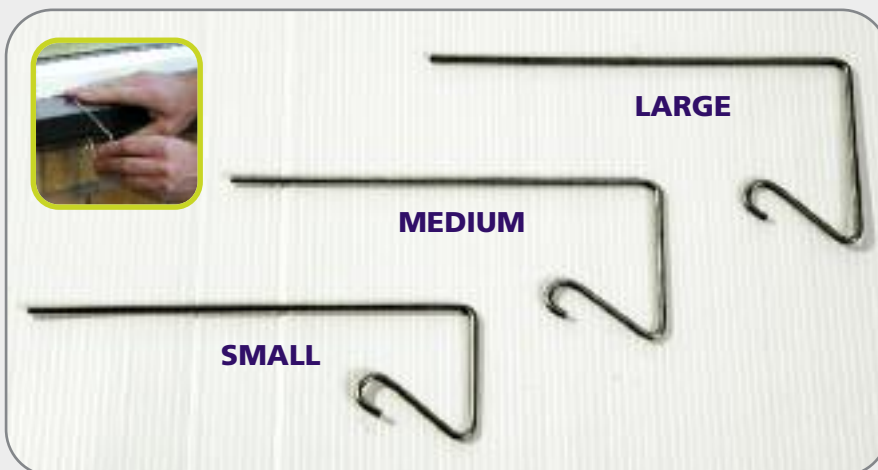

- **STOCK SIZES**
300mm x 1.2M
SPECIAL SIZES
AVAILABLE TO ORDER

- **QUICKLY APPLIED**
Simply 'offer up' and bend to suit your profile.
- **EXCELLENT IMPACT PROTECTION**
Fluted polypropylene provides high impact protection.
- **WATERPROOF**
Will not allow spills to soak through.
- **SECURELY FIXED**
Using tape, staples or Sill Clips *see below*.

SILL CLIPS

SILL CLIPS™ have been specifically designed to secure PB Sill Protectors™ to a wide range of sill sizes without the need for taping or stapling.

Completely non marking they ensure the PB Sill Protectors™ stay in place and are 100% reusable.

- **STOCK SIZES**
SMALL
To fit sills
